

## MOBILE INTERNET BANKING (MIB)

To sign up, log into home banking, make sure you have your cell phone with you, click on **NEW! MIB** on the left menu, and follow the prompts. It takes about 3 minutes to get set up, it's a combination of computer & txt messages, and it's a one time thing.

After signing up, to use Txt Banking, send a message to uwosh@cutxt.com from your cell phone.

### Message Examples:

To receive your deposit balances (if your PIN is 1234) send: BAL 1234

OR

To receive your history for type 10 account (if your PIN is 1234) send:

HIS 1234 10

### \* Legend

account type - The account type you would like to use.

amount - The dollar amount of the transfer or payment.

check number - The check number you would like to search for.

from type - Your account type used for the source of funds for your payment or transfer.

loan number - Your loan number you would like to query against.

new pin - Your new access pin you would like to use.

optional type - By default your message will use the default account type. Include an account type here when you would like to use a different account type.

to loan number - Your loan number you would like to make a payment to.

to type - Your account type you would like to transfer funds to.

your pin - Your current access pin.

**Fees involved:** UWOCU does not charge for the service, however standard txt messaging rates apply from the wireless carrier.

**Security issues:** MIB will only respond to messages from a registered phone. Users should delete the sent messages since they include your PIN number. The responses from MIB do not have any identifying information in them (no CU name, member name or account number)
